

How to complete an outside CD import request.

In CRS on the Radiology order page click on the **BLUE HIGHLIGHTED**. It will open the page for OUTSIDE ORDERS.

You must complete #1 the REQUEST TO IMPORT. AND #2 OUTSIDE ORDERS. Individual exam orders should be entered for any exams needed to assess the patient's care. No medical diagnosis or history is not needed. CDs from our CBOCs only require exam orders. CDs from other VAs be viewed for assessment in Vista Remote.

Template: RADIOLOGY - IMPORT OUTSIDE CD/FILM & REPORT REV 5/2011

IMAGES FROM OTHER VA FACILITIES CANNOT BE IMPORTED INTO OUR PATIENT RECORD PER VA MANDATE

In addition to this consult, the requesting provider is required to

1. enter an Imaging order for the exam(s) desired. A separate order is required for each exam.
2. Take CD/film and reports to Radiology the same day you enter this order.

The imaging order(s) is required for Radiology to register the exam and to import the CD/film.

If the report is not included with the CD/film, Radiology is not responsible for acquiring the report. The ordering provider/service will need to contact the outside facility for the report.

Date of exam(s): *01/27/14 CT CHEST/ABD/PEL

Where was exam completed? *HOSPITAL FOR THE CRIMINALLY INSANE

Reason to import into patient record: *
